

Aaditya

+91-8875198106 | aadityav4001@gmail.com | Github | LinkedIn

PROFESSIONAL SUMMARY

Full-Stack Developer skilled in MERN Stack with experience building scalable web applications. Strong foundation in Data Structures & Algorithms with 600+ LeetCode problems solved. Pursuing B.Tech in ECE at MNNIT Allahabad.

EDUCATION

Motilal Nehru National Institute of Technology, Allahabad

B.Tech in Electronics and Communication Engineering

2023-Present

CPI:7.13

TECHNICAL PROJECTS

ZestFuse – Digital Canteen Ordering System | Live Demo | Github

Avishkar Techfest 2025

Full-stack real-time canteen management platform with multi-role access, live order tracking, and integrated payments – built for MNNIT Allahabad campus use.

- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, Bootstrap, Tailwind CSS, JWT, WebSockets, Stripe API, OAuth 2.0
- Engineered a **responsive multi-role UI** (Admin, Staff, Customer) using React.js, Tailwind CSS, and Bootstrap, ensuring seamless UX across all device sizes.
- Architected **real-time order tracking** using WebSockets, enabling instant status updates from kitchen to customer without page refresh.
- Implemented secure **role-based access control (RBAC)** with OAuth 2.0 and JSON Web Token (JWT) session management, supporting 3 distinct user roles.
- Integrated **Stripe API** for seamless online payment processing, handling multiple transaction types with webhook-based event confirmation.
- Delivered a full **admin dashboard** enabling canteen owners to manage menus, monitor live orders, and update item availability in real time.
- Built a dynamic **product catalog with search and filter capabilities**, reducing item discovery time for end users.

Medi-help – Doctor Consultation Platform | Live Demo | Github

May 2025

Developed a full-stack telemedicine platform that allows patients to search for doctors, book appointments, and make secure online payments.

- **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, OAuth 2.0
- Integrated **Socket.IO** for **real-time appointment management**, enabling live booking, confirmation, cancellation, and status synchronization.
- Implemented secure **multi-method authentication** (OAuth 2.0, OTP login) with JWT-based session management and role-based access for patients, doctors, and admins.
- Architected a **RESTful API backend** using Node.js and Express.js, supporting all CRUD operations for appointment booking, doctor profiles, and consultation records.
- Built a **specialisation-based doctor search with filter functionality**, enabling patients to find relevant doctors quickly across multiple medical categories.
- Integrated a secure **payment gateway** for consultation fee transactions, with server-side validation and payment status tracking.
- Designed a responsive **Doctor Dashboard** using React.js and Tailwind CSS for appointment management and initiating video consultations from a single interface.

TECHNICAL SKILLS AND INTERESTS

Languages: C++, JavaScript(ES6+), HTML, CSS

Frameworks: Node.js, Express.js, Tailwind CSS, Bootstrap

Databases: MongoDB, MySQL

Libraries: Socket.io, JWT (JSON Web Tokens), OAuth 2.0, Stripe API, WebSockets

Developer Tools: Visual Studio Code, Git/GitHub, Postman

Courseworks: Operating Systems, Object Oriented Programming, DBMS, Computer Networks, System Design

Areas of Interest: Data Structure and Algorithm, Competitive Programming, Web Development

POSITIONS OF RESPONSIBILITY

Networking Team Coordinator, E-Cell MNNIT

Public Relations Team Member, Culrav Avishkar

CODING PROFILE

Leetcode: aadityajangraliya - Solved **600+ problems** covering Arrays, Trees, Graphs, Dynamic Programming, and Backtracking.

Codeforces: aaditya88 - Achieved **pupil division** with a peak rating of **1204**; Global Rank 2809 contest.

ACHIEVEMENTS

Runner-up - Secured **2nd** position in Botrush Robotics event MNNIT

March 2024

Special Mention - Robotics event in Avishkar Techfest

Nov 2024

3rd Rank - Secured **3rd Rank** in Codotron Contest, MNNIT

May 2025
